Education

Veer Surendra Sai University of Technology Sep 2023 – Present
B.Tech in Computer Science and Engineering

- **Coursework:** Object-Oriented Programming, Database Engineering, Theory of Computation, Software Engineering, Compiler Design
- CGPA: 8.55/10.0

Skills

Languages: Python, C/C++, Java
Web & Frameworks: React.js, HTML/CSS, Streamlit, REST APIs
Data Engineering: ETL pipeline design, APScheduler, SQLAlchemy, PostgreSQL schema design, data pipelines, Pandas, NumPy
Databases: MySQL, PostgreSQL, SQLite (Relational)
DevOps & Tools: Git, GitHub, Render, Streamlit

Projects

Esports Analytics Platform (MetaMind) | Live

- Designed and implemented a normalized **PostgreSQL** database schema, then built an **ETL pipeline** using **SQLAlchemy** and **APScheduler** to automate daily integration of **300+** player records from external sources into the system.
- Developed a 3-page **Streamlit** dashboard enabling users to browse and compare players, track 5-year performance trends, and benchmark talent across regions.
- Technologies: Python, PostgreSQL, SQLAlchemy, SQL, ETL Pipeline, BeautifulSoup4, APScheduler, Streamlit, Git, GitHub

HelpDesk Lite | Live

- Architected and deployed a **Flask-based** internal ticketing application using object-oriented programming, structuring a domain model (User, Employee, Agent, Ticket) with a repository layer that separates **SQL** logic from application logic for cleaner maintainability.
- Delivered a role-based dashboard supporting real-time database updates, allowing employees to submit tickets and agents to assign, resolve, or escalate them through REST-style application flows.
- Technologies: Python, Flask, SQLite, OOP, Git, GitHub, Render

Career Readiness Intelligence Platform (SkillScope) | Live

- Built a full-stack job-market analysis platform covering **91** companies and **250+** skills, integrating a resume-to-job-description gap analyzer powered by **NLP-based** keyword extraction.
- Engineered a **REST API** layer enabling users to upload a resume and job description and receive a scored skill-gap report alongside browsable market data, following agile development practices with **CI/CD** deployment.
- Technologies: Python, Streamlit, SQLite, SQL, PyMuPDF, NLP, REST API, JSON, Git, GitHub

Certifications

- **Google Data Analytics Professional Certificate (v.3)** – Google, Coursera (May 2026)
- **Data Analytics Essentials** – Cisco (Jul 2025)
- **Web Development Fundamentals** – IBM SkillsBuild (Jul 2024)
- **Project Management Fundamentals** – IBM SkillsBuild (Jul 2024)

Accomplishments

- **Organiser and Point of Contact (Transport), SIH Software Edition Grand Finals 2025**– Led a 35-member team as part of a 9-member core committee, managing transport coordination and on-ground logistics for participating teams.
- **Treasurer, VSSUTMUN 2026**– Managed a budget of INR 50,000 and financial coordination for a 35-delegate Model United Nations conference as part of the core organising committee.
- **Logistics Secretary, VSSUTMUN 2025**– Served in the Secretariat handling logistics for a 55-delegate Model United Nations conference, coordinating venue and delegate-facing operations.
